

“Experience **NEVER OUT-OF-STOCK**
with our **VMIPLUS** program...”

KEY WAYS WE PROTECT YOUR PRODUCTION LINE

BW SAFETY STOCK

On-Site Emergency Safety Stock Vault

We install a locked, on-site safety stock vault with emergency quantities of all your VMI parts. You'll have a key for quick access to the safety stock vault, and you will only be billed for the parts you take out of the vault. Once notified, we immediately ship replenishment parts to ensure you always have the parts you need when you need them.

Mirror Inventory for Rapid Overnight Response

We maintain a mirror inventory of all the parts in your VMI program in our warehouse, ready for immediate shipment at any time. If an urgent need arises, we can ship parts overnight so they arrive the next day, preventing downtime.
