

AEROSPACE & DEFENSE

SERVING MILITARY & AEROSPACE INDUSTRIES

WITH MANUFACTURER CERTIFICATIONS

PRECISION, RELIABILITY, AND INNOVATION

At BW Industrial Sales, we are proud to serve the aerospace and defense sectors with certified quality, traceability, and performance built into every part we provide. As an ISO 9001:2015 and AS9120-certified distributor, we deliver high-performance military and aerospace fasteners, hardware, fittings, and custom components to manufacturers across industries—with a focused commitment to meeting the most rigorous industry standards.

Our inventory includes a wide range of fasteners built to meet AN, AS, MS, NAS, and other industry specifications. Each part is delivered with the precision, documentation, and reliability required to keep your production line moving and compliant. Our certifications ensure tight control over sourcing, documentation, and logistics—giving you confidence in every shipment, whether for planned usage or urgent needs.

By partnering with top AS9100-certified manufacturers, we offer both standard and highly specialized components designed for the harshest and most demanding environments. From high-strength bolts and precision-machined fasteners to mission-critical adhesives and electrical components, we supply what it takes to power aerospace and defense systems.

Committed to your success, BW's VMI Plus Program provides proactive inventory management with our "Never Out of Stock" guarantee and seamless, hands-free replenishment. If a part isn't on the shelf, we'll source it—and manage your forecasted usage to ensure it's ready when needed. Our service goes beyond supply—we deliver tailored solutions, full traceability, and strict compliance from dock to delivery.

In every interaction, our goal is simple: to help you maintain operational excellence, meet critical timelines, and succeed in the most demanding sectors.

"BW Industrial Sales partners with top AS9100-certified manufacturers and, as an AS9120-certified distributor, ensures unmatched traceability, documentation, and quality from dock to delivery."

HOW BW ADDS VALUE

- **Certified Quality:** All parts meet or exceed military and aerospace standards, ensuring reliability and performance in critical applications.
- **Custom Solutions:** Tailored fasteners and components designed to your exact specifications.
- **Extensive Inventory:** Millions of SKUs available, including hard-to-source and specialty components.
- **Streamlined Supply Chain:** Our "Never Out of Stock VMI Plus Program" eliminates delays, ensuring you always have the parts you need.
- **Proven Expertise:** Decades of experience serving aerospace and military clients, with a commitment to quality and customer service.

MADE IN THE USA

AEROSPACE AND DEFENSE FASTENERS & HARDWARE

WITH FREE MANUFACTURER CERTIFICATIONS

AEROSPACE & MILITARY FASTENERS

- High-strength bolts, nuts, and screws.
- Locking and vibration-resistant fasteners.
- Titanium, Inconel, Monel, and stainless-steel options.
- Fully certified to meet and exceed all industry precision and quality standards.

SEALING SOLUTIONS

- O-rings, gaskets, and seals engineered for extreme environments.
- Custom-molded seals for aerospace and military applications.

ELECTRICAL COMPONENTS

- MIL-SPEC wiring harnesses and connectors.
- EMI shielding solutions.
- Custom cabling for avionics and communications systems.

ADHESIVES & SEALANTS

- Thread-locking adhesives for vibration resistance.
- High-temperature sealants for aerospace-grade assemblies.

AND SO MUCH MORE!

FASTENERS - HARDWARE - SPECIALTY PARTS - MORE

CUSTOM-ENGINEERED COMPONENTS

- Precision-machined parts for specialized applications.
- Custom fasteners and kits tailored to your project needs.
- Coatings and finishes to enhance durability and corrosion resistance.
